

PRESLEY TENNANT

Brief Bio

Radiant and fearless, Presley Tennant is the result of unequivocal talent and California ease. Dubbed a “vocal powerhouse” by Taste of Country, People Magazine states Presley is “quickly proving that she is a wild card in the country music industry.”

With a passion for music rooted in the classics, the Horsetown, USA (aka Norco, CA) native immersed herself in Country Music following her national appearance on The Voice at just 16 years old. Determined to make her own way in the industry, Tennant teamed up with some of the industry’s top creatives to produce her own version of California-Country, melding together western lifestyle, her unparalleled powerhouse vocals, traditional roots and a modern energy.

Filled with uncompromising integrity, the ‘it’ factor and a dream, it’s no surprise Presley has shared the stage with musical heroes Tim McGraw, Carrie Underwood, Kelly Clarkson, Carly Pearce, Blake Shelton, Cole Swindell and more. Not only is she immensely talented, she has a heart of gold, donating her time to animal organizations through her Riffs & Rescues virtual charity tour, where she performs live and raises awareness and funds for various animal initiatives.
